Dear Ted:

Just a note of thanks for the most interesting article on the flint flaking industry in Turkey. I really appreciate this as the observations of Bordaz are much like the techniques of the Brandon Knappers in England.

I have really had a rough schedule this past year and it seems no let-up until at least June. Jacques Tixier is scheduled to arrive here from Paris on April the 9th and then on the 19th we all drive to Tucson to meet with Francois Bordes and have a symposium there. Then Bordes will come here on the 12th of May and later on that month Junius Bird will be out from New York. The whole thing is getting to be too much for me but is certainly interesting.

Yes, Berte has retired - or at least in part. Think she works on Fridays and Saturdays. We have not seen her since she did leave Crowleys but may run into her this week-end. You know Berte though she will never have enough time to do all the interesting things she has in mind, so I am sure she is happy. When I see her will tell her you inquired and maybe she will drop you a note.

Thanks again and hope the hunting is good for you this summer.

Sincerely,

Don E. Crabbree
