Dr. Joe Ben Wheat
University of Colorado
Museum
Boulder, Colorado 80304

Dear Joe Ben:

When I saw you at Reno, I believe I told you of my plans to visit your Museum this Summer and, if possible, to look over some of your material. Swanson has now set up a two week tour for me which will include Vernon and Grasshopper. I plan to leave here the 29th of June for Vernon and spend three days there and then two days at Grasshopper. If everything goes well, I should arrive in Denver on July 8th and be at Boulder on July 9th. This is about the only time I can make this trip, so will just have to trust to luck that you will be on campus and not in the field. Also am hoping that Norman Tinsdale will be there so we can compare notes, for I am looking forward to talking with him and getting some first-hand information from one who has actually observed stone tools in the making.

I realize that I have imposed upon your good will be setting up this schedule without first getting your okay, but the film schedule at ISU left me no other choice and, therefore, I can only hope to see you and Tinsdale. If you are going to be in the field, will you please give me your okay to go over the Folsom material with one of your assistants? I would greatly appreciate this, as I have much, much more to do on the Folsom paper.

Trusting these plans meet with your approval and hoping to see you and Pat soon, I remain,

Yours very truly,

Don E. Crabtree
