

may the spirit of this season...  
harmony, love, and understanding...  
grow and become a way of life

Ce. 11. Ce. 89

and may the coming year  
bring all mankind new  
hope of peace and brotherhood

Dearest Don,

as you may have guessed, things here have changed very little. Had a noticeable improvement been realized, we would have written to you before. In looking through my collection of Swiss arrow-heads, there is always that "Folsom" which you made and sent to me in Switzerland a number of years ago. It is a pleasant reminder of a man who truly understood his craft. The year for you has not been all that kind. Were we able, it would be something we would have changed. We can only hope the new year will look upon you much more kindly. It is a wish. In closing, Sigrid joins me in taking this opportunity to wish you a very Merry Christmas and a most happy 1978.

Best regards,

Sigrid + George (Wili)

Soft Touch
