Don E. Crabtree
Route 1, Box 39
Kimberly, Idaho 83341

Dear Don:

I am delighted, and honored, that you will be able to come to the site. Your timing is also advantageous--especially if you can arrive around 23rd of July or later. This is advantageous in that there will be a minor crew shift on the 25th and it will give the most people exposure to your work. Also, Vance should be here at about the same time, which would be added pleasure--on both sides, I'm sure.

I'll forward a copy of the San Francisco paper, for your information--also a copy of the local "tourist type" postcard.

We will be on the site daily--you can arrange for Wanda to give you pickup and guide service, by writing ahead, or following the sketch map.

We are served by Frontier or by Highway 20. Best regards.

Sincerely,

Larry D. Agenbroad
Professor, Earth Sciences

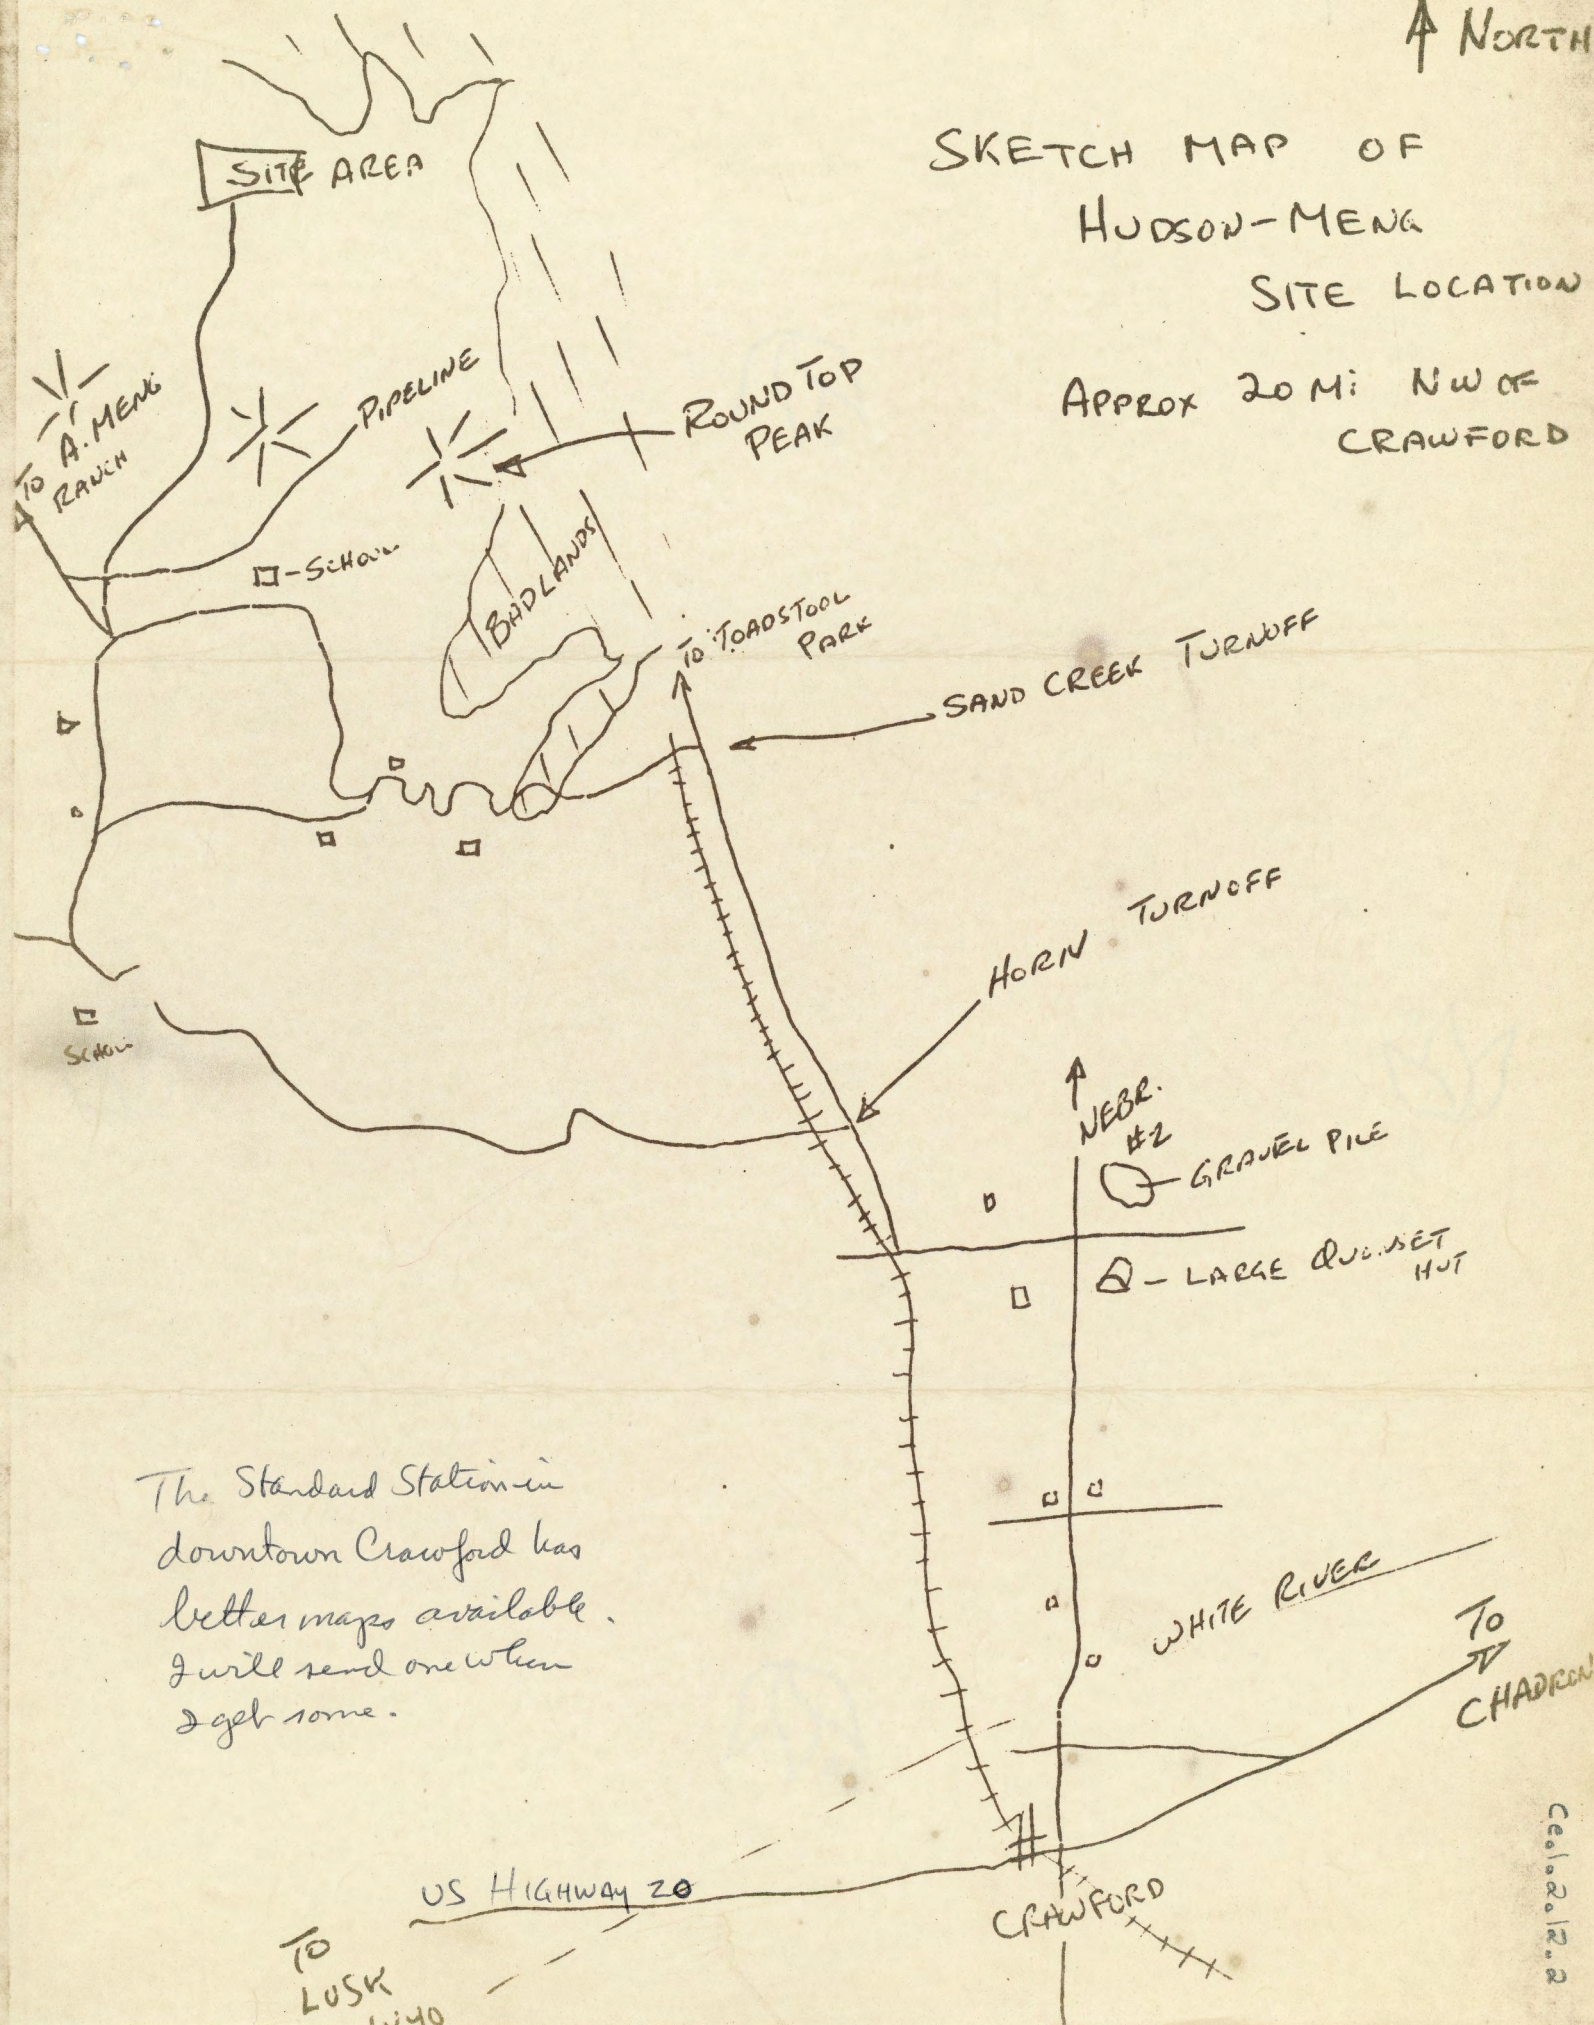

LDA/njb

Please feel free to bring your wife & stay with us as long as you can, or wish to. Fit your visit to your convenience & schedule. We will be in the field until 8 August.
