Mr. and Mrs. Robert Ackerman
Washington State University
Dept. of Anthropology
Pullman, Washington 99163

Dear Bob and Lillian:

Cyelyn and I want to thank you both for making our stay in Pullman such an enjoyable experience. Thank you so much for an enjoyable evening in your beautiful home and especially for the delicious chicken and rice and the home made bread. It is always so nice to relax and exchange ideas with those interested in a mutual field.

Glad Francois was on his good behavior and it was a real delight to work with him and Bruce again. Gave us a chance to exchange and compare theories about manufacturing techniques and even function. Had a nice card from Vienna from John Franklin and do envy him the trip to such beautiful country. Hope to see him in England next Spring.

We returned to Kimberly via Astoria and the Oregon Coast and had a chance to drink in all that beautiful scenery and eat their fresh sea food. The camper works fine and will adequately serve our needs.

Hear that Swanson has selected Alanic to attend the Lithic Tech. field school and do hope he will attend as he will be a real asset and am sure he will enjoy it.

Had to give up the idea of Miami, but will hope to attend the meetings next year. It is just too far and too extensive to make the trip to Florida.

Again thanks for our visit and do give us a chance to repay some of your hospitality when you can come to Idaho.

Your friends,

Don and Cyelyn
