Dr. Robert E. Ackerman
Washington State University
Department of Anthropology
Pullman, Washington 99163

Dear Bob:

James P. (Pat) Green of Idaho State University advises me that he is making application for graduate school in your department and I wish to take this opportunity to recommend him for acceptance.

Pat has tremendous interest and knowledge of lithic technology and typology and would like to be a part of your very active department. Because of your active program in this field, your personnel, laboratory facilities and your type of research, I have recommended your department for his further studies. I believe both Pat and your department would benefit by his enrollment.

I have known Pat for several years and find him to be a man of integrity, ambition and good moral fiber. He is self-reliant and, unlike many graduate students, does not require constant supervision. Given instruction or an idea, he will immediately explore the possibilities and follow it through without prompting or aid.

I highly recommend Pat for your department and would appreciate any consideration you give to his application.

With kindest personal regards,

Don E. Crabtree
