Dear Dr. Crabtree,

Many thanks for your letter of 20th January and the valuable information it contained. I am sure you are right to stress the complexity of this matter and the vital need for experimentation. I do hope that in the future I shall have a chance to acquire at least some elementary blade-making techniques myself.

I am highly intrigued by your mention of the Belgrade conference in September. I shall certainly be there, and if you will be also I shall be delighted to meet you. Please do keep me informed about this. I shall be in Czechoslovakia until the end of July, and in August - I hope - in Hungary. I should also like to see the films sometime - perhaps it can be borrowed from some institution in England? Again, many thanks for your helpful reply, and I hope we may meet later this year. With best wishes, Philip Allworth-Jones.
