

12 June 1979

Dear Don,

I'm leaving at 5 in the morning for the Texas Archaeological Society's Field School, and I'm not half ready. Therefore, this will be a short note. When I returned from Vancouver I realized I was unsure just what pictures you said you would like to have. I have rolls and rolls, so if you want some of artifacts or diggin or particular people, just let me know.

It was such a pleasure seeing you at the SAA meeting. That is such a beautiful area! We drove over to Victoria Island... that is we drove, took the ferry, drove down to a little cove for lunch and then into Victoria and then ferried back to Vancouver. The Texas Gulf Plains are rather dull compared with the Northwest...it was a visual feast for me. Perhaps I can get back again some day. I'd like to bring my sons with me next time.

If you have time I love to hear how and what you're doing. Hope you are well..I know you're in good spirits.

Affectionately,

*Texas*
