Dear Ermelindo :

I am so pleased to learn of your interest in stoneworking and also learn of the whearabouts of Tom Miller. You are fortunate to be located in a country with so much archaeological resources, you have indeed an exciting future. I am more than interested in all stone working techniques and if sometime in the future you would like to send some photographs I would be most pleased .

I am sending this letter to Lucille Hartin, Idaho State University Museum for the publications that you requested.

Sincerely Yours,

DonCrabtree
