Dear Folks:

Just a few lines as usual. Hope this finds you both in good spirits.

Don I am enclosing a copy of an article that apparently appeared in The Chesopiean. I do not know the guy who wrote it and do not know why he sent me a copy. You may already have a copy but I thought I would send it on to you just in case you did not.

Things here have been hectic as usual. Too much paper work-always someone wanting something. But I like working for Thompson and would not change it, I guess. The advantages I have greatly out weight the few disadvantages. And I do not really mind paper work.

Are you planning on going to the Norman meetings? I was not but now I think I will go.

Everyone here sends their best.

As ever,

*Jim*
