Mr. Don Crabtree
Route 1, Box 39
Kimberly, Idaho 83341

Dear Don:

I really enjoyed your letter and all the information.

Don, I will make this kind of short and sweet, as I am getting ready to leave on a trip to Central and South America. I have this one core here which I mentioned in my last letter and I think it would be interesting for you to see, so if you want me to, I will mail it to you and you can mail it or hand it to Dr. Swanson. It will really be most interesting to fine out when the Indians worked the artifacts in that area.

Rest assured that I will really enjoy receiving a copy of the paper you are doing on the volcanice glasses, etc.

While in Central America, I will see what Obsidians or Obsidian artifacts are available in that area. If I have any luck, I will let you know.

Let me know whether I should send the polyhedral core to you or whether I should send it directly to Dr. Swanson. Also, if you need any larger pieces of the Peacock, I will be glad to ship or mail them to you at no cost.

Thanks again.

Best wishes,

Ed Barry
