

Route 1, Box 39
Kimberly, Idaho 83341
July 17, 1969

Mr. Ed Barry
Gem Center U.S.A.
4100 Alameda Ave.,
El Paso, Texas 79905

Dear Ed:

It has been a long time since I last heard from you but I expect you have been just as busy as I have. After all the foreign visitors left, I had to take on a flintknapping school financed by N.S.F., which will be in session until August 5th. Then Hanes arrives from SMU and then Bordes again in Sept. - So it looks like a busy schedule ahead.

Received your latest ad and am intrigued by the materials - which I always need. Some of the students at the flintknapping school also wanted some material and also the American Museum in N.Y. told me to order some for them. So following is the order and addresses where the material is to be sent.

1,000 pounds of Peacock Mine-run obsidian to Dr. Junius Bird
American Museum of Natural History, Central Park West at 79th
St., New York, N.Y. 10024 Send this one C.O.D.

1,000 pounds of Peacock Mine-run obsidian to Dr. Lucy Lewis,
Columbia University, Department of Anthropology, 457 Schermerhorn
Hall, New York, New York 10027.

(Perhaps these two orders could be sent together to save on
the freight costs but for separate delivery in New York)

To Don E. Crabtree, Route 1, Box 39, Kimberly Idaho 83341 the following.

2000 pounds of Peacock Mine-run obsidian		\$70.00
500 Arrowpoints @ 8.00 per 100	40.00	
500 Fluted type @ 9.50 per 100	47.50	
	<u>87.50</u>	
Less 10%	<u>8.75</u>	78.75
		<u>148.75</u>
Payment for Lucy Lewis shipment		<u>35.00</u>
		\$ 183.75

Check is enclosed for \$183.75, the balance of shipment to the
American Museum to go C.O.D.

Want to use the arrowpoints for a material study so, if it is
convenient, would like the larger sizes. All of the requested obsidian
is for experimental work on artifacts, so do the best you can here, Ed.
One of these days I will find the time to make and send you the core
and artifact I promised. I have not forgotten. Sorry you did not
make Tucson.

Sincerely,

Don E. Crabtree
