Dear Mr Crabtree:

I came across an article on you & flintknapping in the "Fabulous Idaho" magazine & was immediately interested.

There are many muzzle loading buffs with flint locks who cannot get flints. Would you be interested in supplying them. We can get you as many or as few orders as you want. There are 8 or so people right in St Maries, approximately 30 men in Spokane & upwards of 60 in the Western Montana area. We have been paying \$1.50 dozen retail - recently Dixie went to \$2.00 because of the scarcity. I am sure you can set a reasonable price between them.

Sincerely  
Mrs Robert Banta
