March 18, 1978

Dear Quentin and Alexandria,

Again let me thank you for all your wonderful gifts and the thoughts that went with them. I am indeed rich to have friends like you. You have been so thoughtful and considerate over the past years. I was so disappointed that I wasn't able to make the trip to the southeastern United States. A visit with you and Alexandria would have been most enjoyable. I hope your work is progressing as you would like it to.

I will be so happy to get back to doing some flintworking again. Gene Titmus comes over often and shows me some of his elaborate productions. It makes me very anxious to get back to work again. I am still faced with more surgery and I hope to have that behind me soon. I have hoped that I will be able to go to Tucson in May. Are you planning to go to the A.S.S.A. meeting? Tucson is like a second home and it would be nice to see Jane Rosenthal and a number of others that have spent time at Dierke's Lake. She is doing very well teaching and also a report on the Pinacate of Mexico. As you remember, she was working on shell fracture. Too, there will be a number that attended the Belize conference. I do hope it is possible for you and Alexandria to attend.

I am fortunate to have Wilma doing this typing. She is Gene Titmus's wife who you may have met. It will be so good to get caught up with a lot of my much delinquent correspondence. Again, thanks for everything.

Your friend,

Don Crabtree
