

ROBERT S. PEABODY FOUNDATION FOR ARCHAEOLOGY

BOX 71

ANDOVER, MASSACHUSETTS 01810

June 17, 1968

Mr. Don Crabtree
Route 1
Kimberly, Idaho

Dear Don:

When I saw you in Santa Fe you said something about coming around these parts in the next few months. I was wondering if your plans had begun to jell yet, and whether you had any idea when you might show up.

I'm retiring this summer, but I shall be around off and on, and I wanted to be sure not to miss you.

Please note that my address will change to the following:

Douglas S. Byers
Phillips Street
Andover, Massachusetts 01810

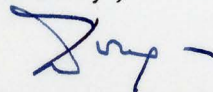

Mail sent there will always be forwarded to me. We will be in Maine, only a short trip from here, and I will be going back and forth for a few weeks in July, staying there from early August until well into the autumn. I can always run down if you let me know when you plan to come.

There are some problems in connection with the Bull Brook stuff--minor ones, to be sure, but I still don't feel competent to pass on them. If you are to be in these parts I would like to discuss them with you.

One of the big problems is that I don't have the collection here--only a lot at a time, that I take back and then get another lot. I begin to see things in later lots and then wonder what I've missed in the first lots. If possible, I want to return everything before I go away in late July, but won't if you plan to come by! And now that I've had to move out of my office I can't find any of the publications anyway.

All best to you and Evelyn,

Cordially,

Douglas S. Byers, Director
R. S. Peabody Foundation
