Dear Don:

I am pleased to announce that the Canada Council Travel Grant has been awarded for the Calgary "Art and Technology Symposium" to be held between Nov. 15-17. Funds allocated to my session "Experimental Lithic Technology: Method and Theory" will be divided on an equitable basis between discussants and participants.

Originally we had hoped to be able to reimburse you for between 60 and 70% of your travel fare. However, plane fares have been subject to inflation since we applied for funds. Nevertheless, we should still be able to cover about 60% of the fares. Unfortunately, you will have to wait until after the conference to be reimbursed. Therefore, please present me with travel expenses at the Calgary meetings so that I can ensure rapid repayment.

Participants, please send me your paper as soon as possible if you have not done so yet. Your cooperation will enable me to duplicate and circulate papers in advance of the conference.

I shall look forward to seeing you in November.

Best wishes,

Rob Bonnichsen

Rob Bonnichsen

*P.S. Don,
Please forgive the
form letter. I hope you
can make it.*
