Dear Don:

Just a note to say that Juanita and I are very hopeful that you and Evelyn can arrange to stop off in Chicago as you are returning home after your Eastern trip.

It has been a long time and we are most anxious to have the Crabtrees as our guests.

A message telling when you expect to arrive is all that is needed to guarantee a warm welcome when you step off the plane.

Congratulations on what will certainly be a series of successes in New York and New Haven.

Best Wishes,

Clif *Boutelle*
