Dear Don:

At long last here are the pictures. They are made up to the Tebiwa page size scale. You will have to number them as they fit into your text.

Unfortunately, when shooting figure 2-d, the mount slipped and the base was not included. I should have re-coated and re-shot the damned thing, but just did not. Should have also re-done the close ups of the South Chilean ones. Perhaps they will come out okay.

The 8 X 10 showing 9 points was to have been used with closeups on separate plate. Now it is just for your records.

Wish I could stop by for the weekend.

As ever,

Junius E. Bird
