Dear Evelyn,

Your welcome letter arrived yesterday. We were all pleased to see that you are able to work the machine again. I know how uncomfortable the treatments you have can be and you are especially kind to think of us at such a time.

By now you must have seen Don's latest in Science. It is great and I immediately phoned the Washington office and ordered 100 reprints over and above the 100 Don will receive. So when he runs out I can supply more.

Last week Peggy and I took off for a cousin's place in Morris, N.Y. -- four hours from here in farmland. We used to go there every summer so it was like old times. Milica and her husband Jim spent their vacation in Yugoslavia. She is so pleased that he liked it and that he got along well with her relatives.

Dick Gould is due back in August. I have not heard from him but such news as we have is all good.

With lots of love,

*Jim*
