DEPARTMENT OF ANTHROPOLOGY

March 3, 1972

Dear Don,

The enclosed "chain" letter is finally going to end in the right hands, we hope you don't mind answering it. With Junius away nobody here knows where and whose the film is.

We don't hear much from Junius; Peggy is going to join him in a few days, Sue might visit them later in April. Meanwhile, I keep the "pot", but plan to escape also for two weeks. Jim, a friend and I are going to the mountains in France, to breathe fresh air and watch others ski.

With best regards to you and Evelyn -

Wilica
