Dear Don:

It was good to have you on the phone and to hear that all goes well with you both.

The enclosure, another copy by Mr. Eichenberger, is from the point I found driven into the underlying clay on Marcelito Is. in Madden lake less than a mile from the Butler Is. specimen you already have. Note the close identity of thinning procedure. Any comment you care to make will be welcome.

Am doing this in a rush as usual so must sign off here -

As ever,

Junius B. Bird
