

SAN BERNARDINO COUNTY MUSEUM
CALICO MOUNTAINS EXPEDITION

Dear Expedition Associates:

We are pleased to tell you that work goes well at the Project Site. Better specimens come at the deeper levels.

It is now definite that Dr. Leakey will lecture in the Gymnasium at the University of California, Riverside, at 8:15 p.m., March 11. You are invited to attend. Free tickets, if they are necessary, will be at the San Bernardino County Museum.

While we have not been given a firm date, it now appears that Dr. Leakey will visit the Site on March 12 or 13. You are invited to be with us. If you plan to come, let us know and if there is a change of dates (it must be between March 7 and 14), we will let you know.

This letter will admit 2 and must be presented at the gate for admission.

Camp in the east area and plan to care for your own commissary.
