Dear Don

I have received some time ago your last letter, and that surely was not too good news. Well, let us hope. Have you had any different results from the ~~exam~~<sup>check</sup> in Blackfoot?

I am ready to go to Carsac for 15 days of vacations, and, O god, how I need them! We will sleep till 10 each morning, and do not much of the remaining of the day. Except that I will probably flake some flint. I am rusty just now. But I have a new moose hammer, sent to me by Bonnischen, from Edmonton, which seems (the moose antler, not Bonnischen!) to work all right.

Meanwhile, too much to do in the last days, before leaving. So, I close this letter, with all our best wishes for Evelyn and you

Bien amicalement,

F. Bordes
