Dear Don,

I have received your letter of Nov.4.I am very glad you can make it and that we so shall meet in Urbana.

Yes,I have seen Wili.He came here some time ago with a friend.Seems a very likable man. I could not(no time) give him a demonstration,but I made some burins for him.He will be back in France in the summer,when I really have some time.

I have seen Tixier making his blades,with the core held under the foot, and the blade stuck on the side.

Well,no time now to really write.I shall be in Chicago on Dec. 1st to meet Les Freeman,then will proceed to Urbana on the 2d,I do not know yet the exact time.

Denise seems to be really on the upward slope. She works(she never stopped) but now she does not complain any more that se cannot do anything!

Bien amicalement aux Crabtrées!

F.Bordes
