POSTE :

Dear Don,

Just some words to ask for your news, and also to tell you that I shall be ~~in~~ Tucson from Sept. 20 to Oct. 28 or so. Unhappily, I will not have time to go up to Idaho! Will you have time, and opportunity, to get down to Tucson?

I have not done much flint chipping this year, since last September! Not much time, or opportunity. We have had to move the core and flake collections from one storage place to a bigger one. Hundred of crates! Now it is over, thank God! I have had also some trouble with sundry bastards, but now this is over too, and I guess I won!

I am just making ready for the excavations, and I have a lot of odds and ends to finish up. What are you doing now?

I did learn of the deaths of Fryxell and Swanson, of course. It is a big loss. Take care of yourself! I want to come to Idaho again, and you gone, there would not be much point to it!

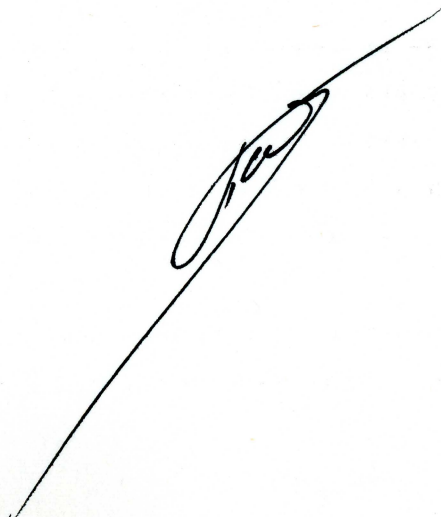

My son in law, Paul Ossa, who is with me just now (Cécile stayed at home with the children) tells me that I have to inform you he did not get the things you were to send him for me, but if you have sent them, Cécile can forward them (hell, I am in a hurry, and my english goes by the window! I hope you understand).

Give my best regards to Evelyn. Write to my summer adress: F. Bordes, Carsac-Aillac, 24200 SABLAT France.

Bien amicalement,

F. Bordes

P.S. I just have now a young kitten, Caius Rufus brevicaudatus (that is latin for Caius the Red with a short tail) which could develop into another Idaho Jim!
