POSTE :

Dear Don,

Got your letter of Feb. 25~~th~~ and the issue of Tebiwa. Thank you so very much for it. I am sorry to learn that you will have more surgery, but I am sure that you will get through all right once more! You are like the old yankees were said to be: half alligator and half buffalo! Not easy to kill!

Well, I hope some day you are well enough to come to visit us. The invitation is standing, any time you feel you can accept it.

Yes, Australia will be a welcome change. I do not know what we will find there, if anything, but I like the Australian desert as I like the American one. By the way, Devil's Lair takes its name from the Tasmanian Devil, a kind of small marsupial carnivore.

Denise is coming back next Sunday. She will have a lot to tell, I am sure. I am sending you today by surface mail a reprint of a paper I did with Charles Dortch about Levallois and blade techniques in Australia.

Hold on, man! See you some day, some place!

Bien amicalement,  
F. Bordes
