Dear Mr Crabtree,

I received your two letters. I am very sorry you were so ill, and that you cannot come this fall, but I really hope that next year you will be able to come. I am now making salvage excavations. ~~The development of the excavation of the water pipes and also pipelines in the western Dordogne, and it leads to the discovery of many open air sites! Thank you for the obsidian (not yet here). I will write later about my results!~~ There is a lot of trenches made now for water pipes and also pipelines in the western Dordogne, and it leads to the discovery of many open air sites! Thank you for the obsidian (not yet here). I will write later about my results!

Very sincerely,

F. Bordes
