Bordeaux, November 26, 1966

Dear Don,

It seems now more than probable that in September and early October 1967 I will be in Montreal, Canada. One thing I would love would be to come after that to Kimberley, and work with you for 8 or 10 days. Do you think it would interest the University of Idaho if I ~~xxx~~ was to give them one or two lectures to pay for part of the trip? Money is the problem, as you well know. Perhaps I could get something from Daugherty too, it is not too far from your home.

No time to experiment now, to much goddamn paper to fill!

Bien amicalement,

F. Bordes
