Dear Don,

I have received you several letters, and Georges has received the beautiful carving set. They are very happy, and will probably write to you soon.

As for me, things are not so good. I had a disagreeable surprise the other day, when I went to the doctor for a general checking, and found out that my blood pressure was up, up and up! 22-13 instead of my usual and normal 14-7. So now I am on a strict diet: no salt, no fat, and I say NO! Well, I already lost some kilos, which is all right, but I am not yet used to it, so I feel weak (I feel more than I am), so I do not work flint! Anyway, I have too much else to do just now.

As for my coming in September, or October, I have no more news from Canada, but I shall write to them to day and ask. I will let you know.

Lot of paper work to do now! With all best wishes for Evelyn and you!

F. Bordes

Thanks for the  
glass knife also!

*F. Bordes*
