Bordeaux, January 15, 1968

Dear Don and Evelyn,

Pierre died on the 11th.

Now that my mind is free of hope, if not of grief and sorrow, I can come back to work. I shall look closely on your draft, see what I can add, and send it back to you in some weeks, I hope.

My best to your family. I shall write some day to your friend of the Museum-Observatory in Twin Falls (I do not have his name in my head just now) and send him what I promised. I do not forget all the nice people I met here. Has the rancher received the mammoth picture I sent him?

I hope everything works well for you this year. With all best wishes for you two, and also for the cats!

F. Bordes
