Bordeaux, April 18th, 1968

Dear Don,

Working hard on the paper just now. I had to abandon it for some time because of many urgent things to do, but now I have put my teeth on it and I hold fast, so I really hope to be able to send it back to you before the end of April. I had to look back on much of the Corbiac material and do some more experiments.

Not much new. I really hope to see you again in a not too long time, here or there.

✉ My best to Evelyn. Hello to the cats!

Bien amicalement,

F. Bordes
