POSTE 334

Dear Don,

Got your letter of February 6, and your postcard. I shall leave France on March 8, and arrive to Tucson on March 10, after short visits to friends in Montreal and Chicago!

I do not know if I will be able to come and stay with you this time. I have duties in France, and I have to be back for the end of May at the latest, but I will do my best to come to Idaho, even if it is for two or three days. I have lot of things to do in the States, in San Francisco, Los Diablos, New York, Philadelphia, after I leave Tucson, and as they pay very well, I have to give them at least two month! Also I will have to visit my daughter in Boston. Even if * she married against our will, she still is our daughter.

But, if there is enough money left, what I could do, if you are willing, would be to come back, this time to Idaho only, in September after the Inqua congress. May be from September 14 to October 5 or 10. But that is, for now, a dream only. May be...

You never told me if you tried to catch some crawfishes in the canyon.

I am glad to know Idaho Jim is still there. He certainly is a tough old character.

Denise will probably come for about two weeks in Arizona, with our younger son, Arnaud. As for Georges, and Marie, I completely forgot to tell you that since last September they have a nice little girl, Anne, who looks very strong and healthy, and always smiles.

This year, I had not much time to work stone. Too much goddamn paper!

Our best to the Crabtrees!

Bien amicalement,

Ce 21/2/71
