Dear Mr. Crabtree,

Just a short note to let you know of my plans. I am looking forward to coming to Idaho the last week in July. I am planning to spend a few days in the Hell Gap area in Wyoming before I come over there. Hopefully I can collect a quantity of the fine quartzites of the area. I have worked it before and liked it for percussion, also it heat treats very nicely. Unfortunately, as usual, I'm in need of raw materials, I only have a small amount of Mexican obsidian and it is in quite small pieces.

Do you know of any other sources of materials in Southern Wyoming? I'll bring my tools as well as a representative collection of some of my work. I'll probably show up around the 23 or 24 of July.

Excavations here are going well to date.

Best regards,

Bruce Bradley
