Dr. Ruth Gruhn
University of Alberta
Department of Sociology & Anthropology
Edmonton, Alberta, Canada

Dear Ruth and Alan:

Thank you so much for the beautiful job of editing my megere paper. Wish you had time to do my other papers, but I'll not ask. I have taken the liberty of including a few other references regarding burin technology.

Evelyn and I have just returned from the University of Arizona where I had an opportunity to study several collections of early man material which was most rewarding. Also enjoyed a nice visit with Vance Haynes.

So glad to hear that the weather is breaking so you can be outside for awhile. Our weather is pretty good but could stand some improvement.

I doubt whether we will be able to attend the Northwest conference, but shall try for we would look forward to seeing you both again.

Am keeping the paper you sent for I believe it is just a copy. If not, let me know and I will return it post haste.

Hope this letter find you well and thanks again for the help.

Sincerely,

Don E. Crabtree
