

Just a little note
of thanks...

Dear Don,

We are at my sister Wilma's now, in Portland, Ore. This seems the nearest to home to me since Mother lived here.

Gracie's sister Virginia, Mother and Grace all left within a 6 month period, in that order.

Wilma's cat heaved on a chair in the dining room. My Niece Lou Ann sat in it after being ready for work. I thought she took it quite well since the cat is still alive.

We took the scenic route

along the Columbia river. The Multnomah falls and the horsetail falls were spectacular. That, along with side trips in Idaho ...right from the

bottom of my heart!

Sincerely,
Eloa Harris

made this a special excursion. My sister Martha visits Wilma often. Her husband couldn't put your book down long enough

to play Rook. He is a self
made man when it comes
to common sense things.
