

7-26-77

Dear Mr. Crabtree -

Greetings from Los Angeles! Since last I spoke with you by phone, I have moved down here, and guess what?? I have a job as secretary to one of the administrators at a large teaching hospital here in L.A. And I am as interested in your obsession surgery equipment as ever. No, I am more interested, since I would like to discuss your tools with some of the plastic surgeons here. Do you have any documentation on the results you're getting on the surgery research the Idaho doctors are doing with your tools? Do you have anything written or perhaps photos that I might show to the doctors here?

I'm still selfishly thinking of my own face. I need to have a scar removed, and I'd like not to have a worse one afterward. I'll look forward to hearing from you.

Sincerely,
Marilyn Campbell
