March 20, 1970

Mr. Dennis P. Carey
120 Montague Street
Brooklyn, New York 11201

Dear Mr. Carey:

Thank you for your letter of March 13th and the prints. I am sure that these will be very useful in future publications - at which time I shall write to you for the photos.

At the present time I can not suggest a publication for these pictures, but it is possible that I will refer you to a publisher in the near future.

I am glad that Lucy Lewis helped you with the details of these pictures. She was a fine student and I have great hopes for her future in the flint technology field.

When my plans are firmed up with a New York publisher I shall advise you about the enlargements.

Yours truly,

Don E. Crabtree
