

THE OHIO STATE UNIVERSITY

Dear Don and Evelyn

Just a quick note for now. Ruthann just called and told me about your upcoming surgery -- next week sometime?? Anyhow I just wanted to let you know that I was thinking of you both. You've meant a great deal to me and I do hope that all turns out well.

Phil says hello, too. We're moving out to a beautiful place in the country in a couple of weeks. About a hundred acres of woods and creek and fields, and both of us are pretty excited. I've worked out a schedule and the \$\$ to have at least half-time available during the winter quarter to finish up the dissertation on those Peruvian lithics. At last!

It was good to see you in Dallas, and sort of a surprise to hear about all not being just right. Bless you both, and we're certainly thinking of you and praying for you.

Carl & Phil
