Dear Mr. Crabtree:

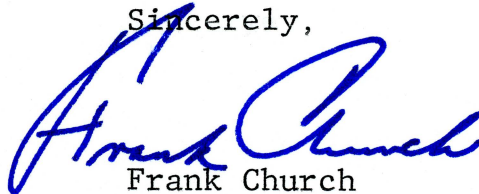

Thank you for your recent letter in which you express your support for the continued funding of the Archaeological and Historic Preservation Act of 1974.

You will be pleased to know that Senator Magnuson's bill, S. 2699, passed the Senate on May 17, and has now been referred to the House of Representatives for consideration. I have always been a strong supporter of the preservation of significant scientific and historical resources, and you can be certain that I will continue to do so. In that regard, I was pleased to note that the Energy and Natural Resources Committee and the full Senate were able to give prompt and favorable consideration to this important legislation.

Thanks again for writing and letting me know your views on this subject.

With best wishes,

Sincerely,

  
Frank Church
