

1-28-79

Dear Don,

Hope you had a nice Christmas. I was in Idaho for a short time as CU isn't into paid vacations. Finally have my act together for grad. schools. I would appreciate 2 letters to the persons on the next page. Possibly in early February. ~~if possible~~. I've spent a couple of days applying and it is tedious as hell, as every school does it different.

Hope you can come visit our booming project this summer, if the '3' snow depth melts. Guess we are planning quite a season. If all goes well I will be leading a geology crew in search of lithic and raw material resources. Should be exciting. Take care.

Love,
Vickie
Clay
