Dr. Joffre L. Coe
Research Laboratories of Anthropology
University of North Carolina
Person Hall
Chapel Hill, N.C. 27514

Dear Joff:

Thank you for your letter of March 6th regarding your student attending the summer field school and also inquiring about our films.

We have not as yet received word on the funding of the summer field school but it looks favorable. I am sure anyone you would recommend would be most acceptable and, personally, would like to have a student from Chapel Hill. His work is not very good but he certainly has the idea and believeth with some help he would learn quickly. Will you please have him apply to Dr. Earl Swanson, Idaho State University, Dept. of Anthropology, Pocatello, Idaho 83201 and send letters of recommendation and I will certainly add mine to the list. If he is accepted would like him to bring along some of your local material so we can try chipping on that.

We now have several films on the market for sale or rent. The first film, "The Shadow of Man" is handled, I believe, through the University at Pocatello. The others - "Ancient Projectile Points", "The Alchemy of Time", "The Flintworker" and "The Hunter's Edge" are distributed by Richard J. Soltys Productions, 1615 West Burbank Blvd., Burbank, Calif. 91506 and you can find out about the fees by writing to him. Am enclosing a copy of this letter to Swanson so they can advise you in detail about the films.

We may be able to make the meetings at San Francisco and, if so, will look forward to seeing you and Sally there. Have your student get his application in to Pocatello as soon as possible for we will be picking the attendants soon.

Hoping to see you soon, I remain,

Yours very truly,

Don E. Crabtree

cc-Dr. Earl Swanson
