Don Crabtree
Route 1
Kimberly, Idaho

Dear Don;

In a recent conversation with Bob Porter I learned of your recent infirmity. I was sorry to hear it but am happy that you are improving.

It was unfortunate that you were unable to go abroad to work with Bordes but that can come later. We are still interested in having you come to spend a week or so with us, to work with some of our graduate students on techniques and look over some of our materials with us to analyze techniques used.

If you think that your health would permit and you can arrange to get away, we would certainly appreciate having you with us. Of course, there will be provisions for expenses and an honorarium. Let us know if and when and we can make final arrangements.

We had another good summer in our excavations on the Columbia river with more of those crude points which seem to be out of place there.

With best regards, I am

Cordially yours,

Dave
