

# THE DEPARTMENT OF ANTHROPOLOGY

WASHINGTON STATE UNIVERSITY

is pleased to sponsor

## A SYMPOSIUM ON LITHIC TECHNOLOGY

APRIL 10, 11, 12, 1972

### VISITING PARTICIPANTS:

Dr. François Bordes, Sc. D., Professor of Prehistory, Faculté des Sciences, University of Bordeaux, France.

Mr. Bruce Bradley, Reader in Lithic Technology, Cambridge University, England.

Mr. Donald Crabtree, Resident Associate in Prehistoric Lithic Technology, Idaho State Museum.

Dr. John H. Fremlin, Professor of Applied Radioactivity, University of Birmingham, England.

### SCHEDULE: (The following events will be held in CUB 212)

#### April 10, 2:00 - 5:00 PM:

- F. Bordes: Lithic Technology in the Science of Prehistory
- D. Crabtree: The Diagnostic Value of Lithic Debris
- B. Bradley: Brandon Gunflint Manufacturing
- F. Leonhardy: The Levallois Technique on the Lower Snake River
- Comments: F. Bordes, B. Bradley, D. Crabtree, A. Faulkner, H. Irwin

#### April 11, 3:00 - 5:00 PM:

- F. Bordes: Manufacturing Technology Inferred from Artifacts and Debris
- J. Bense: Naturefacts and Talus Creep
- G. Krantz: Hands and Handaxes
- Comments: F. Bordes, D. Crabtree, B. Bradley

#### April 12, 10:00 - 12:00 Noon:

- J. Fremlin: Application of Thermoluminescence to Dating Lithic Specimens
- F. Bordes: Levallois? Mousterian? Comments on Type Concepts
- A. Faulkner: Flintworking: Stress Analysis Using Polarized Light

2:00 - 4:30 PM

Coffee and informal discussion at the Laboratory of Anthropology

Notices of other programs or demonstrations will be posted  
in the Laboratory of Anthropology.
