#### SCHEDULE

#### WEDNESDAY, MAY 26

2:00 p.m. : Laboratory of Anthropology  
Demonstration I, Basic Technological Processes

#### FRIDAY, MAY 28

2:00 p.m. : Laboratory of Anthropology  
Demonstration II, Production of Specialized Tools; Fluting, Blade Production, Levallois Processes, etc.

4:00 p.m. : Laboratory of Anthropology  
Seminar, Involving Mr. Crabtree's Interpretations of Paleo-Indian Tools, Using W.S.U. Collections

Mr. Donald Crabtree is internationally known for his experiments in flint working and interpretations of manufacturing processes of lithic artifacts. Currently he is conducting a National Science Foundation sponsored seminar in the manufacture of stone tools at Idaho State University.

"Men's conception of themselves and of each other has always depended on their notion of the Earth . . . To see the Earth as it truly is, small and blue and beautiful in that eternal silence where it floats, is to see ourselves as riders on the Earth together . . ."

—Archibald MacLeish, during Apollo 8 flight, 1968
