

Virginia Commonwealth University

Dear Sir: *Don*

Enclosed is a proposal for a class in Living Archeology sponsored by Virginia Commonwealth University this coming summer. We are trying to recruit students--or anyone interested--to partake of our experiment. To this end we wondered if you would pass the enclosed on to some member of your department who might disseminate it to interested students and/or other personnel. We will be glad to send along further information to those interested as compiled.

Sincerely,

Errett Callahan
