Dear Dick and Phyllis:

It was so good to have the opportunity to work at WSI again and to visit with you. Thank you both for the delicious lunch and especially for the opportunity it gave us to have a little visit. Glad to see Dick looking so good and so happy with his work. Why not - I would give a lot to just visit the site and it must be fascinating working there.

Had a nice card from John Fremlin from Vienna and he, too, says the meeting meant a lot to him. I am afraid Bordes, Crabtree and Bradley learned more than the students. It really was a pleasure to get together again.

Just learned that Marie Faulkner has been selected to attend the summer field school and do hope he can make it. He is a student with unlimited potential and it will be a pleasure to work with him this summer.

We had to give up Miami due to lack of funds and a conflicting date of initiation into Sigma Xi. Maybe next year the meetings will be closer to home and we can see our friends again.

Do have a nice trip to Florida and, again, thanks for the opportunity to work at W.S.U. and a chance to visit with all the fine people in the department.

With best wishes,

Don
