Dear M. Crabtree,

If I write no often, it is motivated by my bad english.  
I hope that the health of your wife inspire no disquiet.  
Upon have asked to Cixier if my book is ready, I think  
that my book will be printed at the end of the first half-year  
its title is "Process of dynamic and structural drawing of  
prehistoric lithics in dustries"

I learn that an American researcher works at a book  
on drawings of lithic pieces with optics proceedings very interesting.  
I don't know neither his name nor his University, can  
you help me to find again this informations, it is  
very important for me to enter in contact with he.

In my book you will see colours plates of your  
experiences in Oregon expedition. I pursue my analysis  
of the surfaces of these experience, this is very interesting  
It is damage that we are so remote geographically...

Sincerely Yours,
