Dear Dr. Crabtree,

I enclose proofs of your research report which is scheduled for publication in the same issue as Dr. Bryan's article "Early Man in America".

These are for your information but if you do find errors I shall be glad if you will let me know by 21st February.

I shall be grateful if you can clear a few points in the references

- (1) Crabtree, 1968. Are the volume and page numbers now available?
- (2) Tixier is given as 1953 in the text, 1963 in the references. Please indicate which is correct.
- (3) Does Swanson (1966), footnote 1, indicate the same publication as Swanson and Sneed 1966, in the text and list of references. If not can you let us have the details?

Will you please, now let us have five keywords to represent this item in the cumulative indexes to be published at the end of 1969. I enclose a sheet explaining the selection of these.

Dr. Donald Crabtree, Alberta, Canada.

3rd February, 1969.

As you may know, you will receive 15 free copies of your report after it is published in CURRENT ANTHROPOLOGY. These copies are supplied as tearsheets, assembled, stapled and sent to you. However, you may secure additional copies at a cost of 2 cents U.S. each. If you wish to do so please inform me by 21st February.

Yours sincerely,

*Alison W. Dawson*
