Dear Dan,

I received your so nice letter & am sorry you have been sick, I am also sorry I missed Ruthann Knudsen, but the meantime will I I have no doubt solved the mystery of the "talking stones" of So. Nevada. We were rewarded in our field work by recovering a number of stones exhibiting lettering. By research I have separated a number as being "old Phoenician". apparently these ancient people app. 2000+ years ago circumnavigated So.

line penetrated the Gulf of Calif.,  
leading to the Colorado river's  
mouth, following up, leading  
to the vicinity of the Spring  
& Sheep Mountains here in So.  
Nevada. Estimating among  
the natives they spread their  
religion "Tanit" goddess of  
fertility, whose sign was a  
"Triangle". We have one stone  
exhibiting the name "Ho-to"  
leader of the Pine tree people  
(☉☉☉☉) reading from right to  
left. What else, I have much  
evidence to back up these
