Mr. Donald Crabtree;
Rt. 1;
Kimberly;
Idaho.

Dear Don;

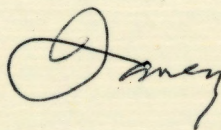

I have arranged with Western Airlines to leave Los Angeles the morning of Aug. 24. Will arrive in Twin Falls at 1:45 via West Coast Airlines. OK????

Can you get us samples of VARIOUS kinds of rock? We must know how quartzite, basalt, cryptocrystallines and obsidian work on wood. We also need a few hunks of good oak.

Do you have a little barbeque or hibachi or something in which we can keep a small fire going? I want to try controlled burning, removal of charcoal, more burning etc in shaping real hard wood.

We should also work with antler of which I have a few extra pieces. Do you want me to bring them?

Looking forward.

Emma Lou Davis
